PROFILE

Software engineer with 4+ years building and shipping production web and mobile products, most recently in fintech/payments at Zimpler. Full-stack across TypeScript, React and Go, with real experience integrating LLM and agentic tooling into products and dev workflows. Comfortable owning a technical roadmap end-to-end, from architecture decisions to production delivery, and experienced working in small, fast-moving teams where product judgment matters as much as engineering execution.

EXPERIENCE

Software Engineer — Zimpler Oct 2024 – Present

- Led design and delivery of new features in client-facing dashboards, from concept to production, owning the full lifecycle.
- Built payment flows and customer-facing features in a regulated fintech environment using TypeScript/React on the frontend, Go services on the backend, and AWS infrastructure.
- Drove adoption of agentic AI workflows across the dev team, including automated code review, custom agent tooling and prompt engineering with Claude Code.

Frontend Developer — Axel Arigato 2023 – 2024

- Built and maintained a production e-commerce platform with Next.js, TypeScript and Tailwind, including API integrations, CRM and headless CMS work.

Web Developer (Internship) — Lundgren+Lindqvist 2022 – 2023

- Built e-commerce features with WordPress/PHP and SCSS/BEM, working directly from design specs.

SIDE VENTURE

Founder & Engineer — Coda Product Studio 2024 – Present

- Solo studio shipping SaaS and mobile products end-to-end, taking full ownership of product decisions, architecture and delivery.
- Built Kontra (deal-management SaaS) and Conductor (agent orchestration platform) using Next.js, Supabase and the Anthropic API.

EARLIER

2013 – 2021: management, marketing and customer-facing roles in Florence and Gothenburg (Etesian SRL, Replay).

SKILLS

Languages: TypeScript · JavaScript · Go · Python · PHP

Stack & infra: React · Next.js · Node.js · AWS · Kubernetes · Docker · CI/CD · Supabase · Vercel · React Native (Expo) · headless CMS · Git

AI / LLM: LLM APIs (Claude, OpenAI) · agentic workflows & orchestration · Claude Code · prompt engineering

EDUCATION

Web Development / E-commerce — Medieinstitutet, Gothenburg 2021 – 2023

Business & Marketing — SSATI, Florence 2015 – 2017
